

# *Saint Thomas Apostle School*

**Profesora: Sra. Rosas**

**BIENVENIDOS A NUESTRO MUNDO**

**WELCOME TO OUR WORLD**

It is important to communicate between people in the world. We use various strategies to facilitate the learning of Spanish by using puppets, songs, colors, books, etc.

Children learn to communicate, socialize, and discover their strengths to develop their creativity and imagination using a new Hispanic language.

As one of the many activities planned by the St. Thomas School, children are taught good Christian values on Thanksgiving Day by sharing ideas and tips between each child in both Spanish and English languages.

While celebrating the New Year, the 5th graders learned songs and vocabulary appropriate to the festival, as well as moments of joy while practicing the second language, Spanish.

The joy and happiness of Christmas comes and the 6th grade celebrates with pizzas, buffet meals, fruit juices, and celebrating the arrival of Jesus to each of our hearts.

Just as we write, we read and speak, the 7<sup>th</sup> grade students also participated in our “Olympic Games” in Spanish, speaking out in different ways.
